This is an office action for serial number 10/739,080.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 19, 22, 23, and 26 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Schwing 6,431,822. Schwing (figure 15-17) discloses a vertical support (30), an arm (35) being U-shaped, a product (710), a base plate (740), a horizontal base (704), a horizontal mounting bracket (92), . It would have been an obvious matter of design choice to have made the horizontal base in a T-shaped outline comprising a first member having parallel legs and a second member disposed opposite said first member, said second member having parallel legs, said second member parallel legs extending parallel to and spaced from said first member parallel legs, said first member being connected to said second member plate so that said horizontal base forms a T-shaped outline, said base plate being secured to adjacent ones of said first and second member parallel legs, since such a modification would have involved a

mere change in the shape of a component. A change in shape is generally recognized as being within the level of ordinary skill in the art since the applicant has not shown how the chosen shape is critical.

Allowable Subject Matter

Claims 2-5, 7-9, 11-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.
